

MIKE SMALL

Mike Small is the Director of One Planet Food, a research and development project focusing on food and climate change, bioregionalism and local development as a strategic alternative. He studied at Birkbeck College, London University and with Murray Bookchin at the Institute for Social Ecology, Vermont and has taught at University of Edinburgh, and Dundee University. He currently works with the Sustainability Institute at St Andrews University and is part of the UNESCO Chair group at Torino University. He has taught for the last three years at COREP on regionalism, problems and potential in the transition town movement and the European Environmental History.

Publications include:

'A Vigorous Institution: The Living Legacy of Patrick Geddes', Luath Press (2007), *Univeralism and the Genus Loci: Geddes in Cyprus, Italy, Catalonia and Japan* .

'Systemic Complexity and Eco-Sustainable Development' Edited by Ivano Spano and Dario Padovan (2001), Padua, Italy - June 2001, ***Local Development as a Strategic Alternative***
